

## Why Greenstar?

Waste Management policy in Ireland is determined by EU Legislation and becoming more complex. Each year Irish industry is under growing pressure to achieve higher standards of Waste Management compliance, environmental awareness and contribute to Ireland's Recycling Targets.

## Our Mission

Greenstar's mission is to offer the most comprehensive integrated waste management solution through partnership with our clients.

## Our Services

- Implementation of waste management & recycling best practice
- Easy operational control with one point of contact
- Confidence in the delivery of a consistently high level of service
- Comprehensive waste management & recycling reporting systems
- Higher recycling rates through greater recycling focus
- Best practice processing of more difficult waste streams, e.g. food/wet waste
- Reduced use of landfill
- Delivering cost reductions
- Improved buy-in from staff/tenants with an "on-the-ground" recycling presence
- On-site weighing system for all waste streams resulting in greater operational consistency
- More accurate audit trail and management reporting system
- Technology & legislative updates
- Quarterly business reviews
- Supply & maintenance any segregation bins
